RE: Permit #ACT 015-032
Genwal Coal Company
NOV #N 90-17-5-2

1990
FOLDER #2

DIVISION OF
OIL, GAS & MINING

Dear Mr. Summers:

This letter is in response to the above referenced Notice of Violation, page 2 of 3 issued by Lynn Kunzler, September 7, 1990.

According to page 12-17 of our permit visual subsidence/escarpment surveys need to be conducted on weekly intervals only during the time of active recovery mining (pillaring). Thereafter, a visual subsidence escarpment failure survey will be conducted at quarterly intervals at areas where mining has taken place beneath escarpment areas visible from Huntington and Crandall Canyon for a period of two years after development mining.

Genwal's second mining was conducted during January, March, the last week of May, and June. Please find enclosed our record of the subsidence monitoring conducted during these specified times, as required according to our permit.

Should you need additional information or have any questions, please contact me at 687-9813.

Sincerely,

GENWAL COAL COMPANY
